JOHN T. MAN THE TAILOR

TALKED OF TURKEY.

Chekib Bey Has a Conference With Secretary of State.

BOTH NONCOMMITTAL

It Is Said the Sultan's Representative Declared Americans Are to Be Protected, but Government Not Responsible.

Washington, Aug. 31.—Chekib Bey, the Turkish minister, had a long interview Monday with Secretary Hay. He refused to discuss the interview, stating he had nothing to communicate further than what appeared in the Associated Press dispatches Sunday morning. After the interview Secretary Hay visited the navy department. If the Turkish minister requested the European squadron to be kept away from Turkish waters the request probably can not be granted, even should this government desire to do it, as the navy department states it to be impossible to communicate with either the Brooklyn or San Francisco until they arrive at Beirut. Chekib Bey assured Secretary Hay that the Turkish government has done nothing wrong and would use every endeavor to protect American citizens residing in Turkey. He also discussed conditions of the insurrection in Turkey and said the Turkish government was not responsible for any disasters that occurred.

There is no intention of changing any orders at present, especially as the ships can not be reached until they arrive at Beirut.

No messages of importance were received from Minister Leischman Monday.

ATTEMPT WAS MADE.

Reports Show That Life of Vice Consul Was in Grave Danger.

Washington, Aug. 31.—Late dispatches from Mr. Leischman do not differ materially in tone from those previously sent. Minister Leischman does not, as reported in some quarters, request the withdrawal of American ships from Turkish waters. While reports by way of London state that no attempt was made upon the life of Vice Consul Magelssen, officials advise so far received show that such an attempt was made.

SPIRIT OF UNREST.

This Is Brought About by Reaction of Canal Treaty.

New York, Aug. 31.—The spirit of revolution is gaining in force on the isthmus as the result of the rejection of the canal treaty by the Colombian congress at Bogota, says the Times' dispatch from Panama. Only vigorous action on the part of the government can prevent an outbreak, the correspondent asserts, and it is doubtful whether such action is possible.

General Huerfano, commandant at Fort Chirique, and virtually commander of all government forces in and around Panama, is at this time the only officer to whom the government may look with any hope of checking any revolutionary spirit. Even he is a warm sympathizer with the canal project. As for the naval force, it is practically controlled by Americans or pro-American Englishmen. They form the mining, navigation and engineering forces.

REFUSED TO SIGN.

In Consequence the First Bulgarian Notable Was Hanged.

Sofia, Aug. 31.—Nine hundred refugees from Malkotirno and surrounding villages arrived at Purnuk-Bulgaria. The refugees say the Turkish garrison fired upon the Bulgarian part of Malkotirno with the object of creating the impression that a revolution is in progress. The prefect on Aug. 11 summoned the Bulgarian notables of Malkotirno and endeavored to force them to sign a statement that the insurgents were the aggressors. The notables refused to do so and the first man who refused was hanged the following day.

Egyptian Cotton Seed.

Morelia, Mex., Aug. 31.—The government of Michoacan has received from the secretary of encouragement in the City of Mexico a large amount of Egyptian cotton seed which will be distributed among the planters who desire to plant them as an experiment.

Congress of Actuaries.

New York, Aug. 31.—The fourth International Congress of Actuaries is in session here. The delegates include representatives from several countries. Secretary of Commerce and Labor Cortelyou, who is an honorary member, was delegated by the president to open the session and delivered an address. The session will continue one week.

Broke a Record.

Sacramento, Aug. 31.—Jacob Grugler of the Sacramento Helvia Shooting club has broken the world's record at 200 yards, German twenty-five ring target, by making 463 out of a possible 500. The record, heretofore held by Dr. Rogers of San Francisco, was 461 out of 500. Mr. Grugler's shooting was off-hand.

OPPOSITION TO OATH.

No Catholic Can Consistently Take Some Obligations.

IN SERMON A PRIEST

In a Michigan City Suggests That the International Typographical Union Modify Portion of Its Requirement.

Marshall, Mich., Aug. 31.—Rev. Dr. P. A. Baart, rector of St. Mary's church of this city, in a sermon on education, said that no Catholic could consistently take or keep the oath of some labor unions and he mentioned particularly the Typographical union, part of whose oath he quoted as follows:

"I hereby solemnly and sincerely swear that my fidelity to the Typographical union, and my duty to the members thereof, shall in no sense be interfered with by any allegiance that I may now or hereafter owe to any other organization, social, political or religious." Father Baart said this oath places the union before the church and before the state and distinctly impeached the loyalty and Catholicity of those who take such an oath. Possibly the leaders may not have realized the full force of the words they used in their oath, he said, but whether they did or not every patriotic citizen and every sincere, consistent Catholic should demand that such an oath be modified and that the objectionable clause be cut out.

CLAY AND SALT.

Texas Developing the Former and Louisiana Has Much of Latter.

Baltimore, Aug. 31.—The Manufacturers' Record says: Texas is not so occupied with oil and lumber as not to be able to be interested in other forms of production, and it is giving close attention to the investigations of economic geologists into its clay deposits. It has been found that not only are there clays in many sections of the state which make an excellent brick, and other deposits capable in the judgment of experts of giving Texas independence in the manufacture of stoneware of the best quality, and also giving it a basis for an export trade in such goods, but that it has a deposit of glazing clay quite as good and quite as extensive as the one in New York state, from which the leading potteries of the country are supplied. In the adjoining state of Louisiana a successful engineering feat is rendering accessible an immense strata of rock salt having a depth of at least 1000 feet, which, systematically exploited, will almost double the salt output of the state.

HENRY RHODE DEAD.

After A Lingerin Illness He Passed
Away Sunday Afternoon.

Sunday afternoon at 4:07 o'clock Mr. Henry Rhode died at his home in this city after a lingering illness of some six months duration, during which time he grew gradually worse in spite of the efforts of the most skilled physicians and trips to Marlin and Hot Springs, Ark., in search of relief. He suffered from acute liver trouble and paralysis. He was brought home from Hot Springs July 9, and little or no hope was entertained of his recovery from that time on, although he improved slightly for a time.

Mr. Rhode was born at Frelsburg, Colorado county, Feb. 28, 1851, and was in his 53rd year. He came to Bryan 30 years ago and has since resided here continuously. He was twice married, the last time to Miss Nannie Blatherwick of this city, on Feb. 23, 1875, and his wife and five children survive. His eldest son, Emmett Rhode, was born of his first marriage. The other children are Mrs. J. T. Maloney of Palestine, Miss Nellie Rhode, Master Henry and little Miss Alline Rhode. He also leaves four sisters, Mrs. Mary Emmel of Columbus, mother of E. R. Emmel of this city; Mrs. Ida Duerr of Columbus, Mrs. Emma Smith of Ellinger, and

Mrs. A. Jungbecker of Shiner.

Mr. Rhode was a Lutheran in belief and a member of the local lodges of Knights of Honor and Sons of Hermann. He was kind and charitable in disposition, unostentatious in manner and faithful as a friend. He gave of his means in many ways for the up-building of the town, and enjoyed the esteem and confidence of many friends.

He was a man of few words and much business capacity, and paid strict attention to his business. A poor man to begin with, he amassed a large fortune and owned valuable property in Bryan, Dallas and Houston. The value of his estate is conservatively estimated by those who knew him well at \$150,000. He was a great believer in brick and mortar and owned more business houses than any other man in Bryan. He was also a stockholder in the City National Bank.

Funeral services were held at the family residence yesterday afternoon at 5 o'clock and conducted by Dr. W. C. Friley. Members of the Knights of Honor and Sons of Hermann were in attendance with other friends of the deceased and his sorrowing family. The remains were entered at the city cemetery.

Again the hospitable home of Mrs. Westbrook was thrown open for the pleasure of the young people, the occasion being a party given on Wednesday last by little Miss Nellie Miller in honor of her cousins Misses Ruby Davis of Bryan and Eula May Gillespie of Houston. It was also a farewell party to her many little friends, as she leaves Monday for Salem, N. C., where she goes to enter school. She will be sadly missed by her many friends.—Hearne Democrat.

HOLDUP AT CHICAGO.

Bold Deed Was Committed in the
Illinois Metropolis.

TWO MEN ARE SLAIN.

The Shooting Was the Work of a
Trio of Desperadoes, Who Got
Away With Three Thou-
sand Dollars.

Chicago, Aug. 31.—Two men were killed and two others wounded by hold-up men at the barns of the Chicago City Railway company, Sixty-first and State streets at an early hour Sunday. The shooting was done by three men, who escaped after securing \$3000. Three of the men who were shot were working in the cashier's office and the other was a motorman, asleep in the outer office. The men in the office were shot before they were aware of the presence of the robbers, and the motorman was killed as he was rising from a bench, where he had been asleep.

The dead: Frank Stewart, assistant clerk in cashier's office; John B. Johnson, motorman. Injured: William B. Edmond, receiving clerk, will recover; Henry Biehl, will recover.

The robbers took no chances, but disposed of all the opposition of the employees before entering the office. Choosing the time when the employees were busily engaged in balancing up the receipts of the night, just after the last conductor had turned in his money and left the barns, the robbers suddenly appeared at the receiving window and began shooting. The first bullet fired struck Stewart and he fell to the floor without a word. Biehl and Edmond, who were sitting near Stewart, turned to see what was the matter, but before they could leave their chairs they were rendered helpless by the well directed bullets of the robbers. Johnson, the motorman, who was asleep on a bench in the outer office, hearing the noise, started up to go to the assistance of his companions, but was shot and killed before he could get on his feet. Making sure that all opposition had been removed the robbers then broke open the door of the cashier's office with a sledge hammer and secured \$3000 in bills, which was lying on the desk. They then made their escape. Four men were arrested three hours after the robbery, but they have not as yet been identified.

NEW RAILROAD.

It Will Be Built Between Yellville and
Newport, Ark.

Joplin, Mo., Aug. 31.—Northern Arkansas is to have a new railroad, to be known as the Morning Star line, projected from Yellville to Newport, a distance of 100 miles, through the counties of Searcy, Stone and Independence, opening up a large undeveloped mineral territory. The Union Trust company of New York has a mortgage on the right of way of the Morning Star for \$4,500,000. The route has been selected and work will soon begin.

DEAFNESS CURED.

Physician Claims to Have Cured Him-
self and Two Others.

Marion, Ind., Aug. 31.—Dr. J. H. Forrest, ex-president of the state health board, has demonstrated to his satisfaction that deafness in many forms can be cured by the use of Fin-
sen rays. He announces that he has successfully experimented on himself, a deaf girl aged seventeen and a boy. The girl had been deaf since birth and the boy for three years.

INSURGENTS LOST.

They Met With Severe Reverses at
the Hands of the Turks.

Salonica, Aug. 31.—The Bulgarian insurgents sustained a severe reverse at Smileve Friday, 1000 of them being killed. The insurgents to the number of 3000 occupied a position of a height, which was stormed by six battalions of Turkish troops commanded by Servet Pasha. After losing 1000 of their number the Bulgarians fled in the face of the heavy Turkish artillery fire. The Turkish losses were insignificant.

AWFUL SLAUGHTER.

Over One Thousand Soldiers Were
Killed, Including Seven Governors.

Paris, Aug. 31.—A dispatch from Morocco says that a large imperial force has been surprised and the command, numbering 2000 men, almost annihilated. Over 1000 were killed outright. They were ambushed.

Pickett's Regrets.

Memphis, Aug. 31.—Mr. A. B. Pickett, editor and manager of the Scimitar, arrived here from New York via Tampa, Fla. Mr. Pickett was on an ocean steamer when the death of H. P. Ricketts, associate editor of the Scimitar, was recently announced in Chicago, and heard for the first time of Mr. Rickett's sudden demise when he landed from the vessel. Mr. Pickett said that southern journalism had lost one of its brightest ornaments in the death of Mr. Ricketts and his personal loss could not be estimated.

Was Frustrated.

Harve, Mont., Aug. 31.—What is supposed to have been an attempt to hold up the westbound flyer of the Great Northern by Kid Curry and his gang on Friday night, near Malta was only frustrated by detectives riding on the engine.

Big Fire at Hugo.

Hugo, I. T., Aug. 31.—Fire at this place consumed an entire block, destroying property valued at \$13,000. During the two and a half hours the fire raged there was fear the whole town would go.

BITTEN BY A PUPPY.

Mother of the Animal Went Mad and Much Alarm Felt.

Temple, Tex., Aug. 31.—The five-year-old daughter of a farmer named Caldwell, living near Seaton, ten miles east of Temple, was bitten by a puppy dog, supposedly mad, several days ago, and the father was here in search of a madstone. The dog had been given to the child by a neighbor, and after it had bitten her it was learned that the mother of a brood of nine, of which this puppy was one, had gone mad while suckling them, and that all of them had been given away and the mother killed.

An alarming feature of the case was that all of the offspring had developed rabies in the different homes in which they were scattered. Mrs. Caldwell was also bitten.
